

I am not wanting to write a detailed submission. I am just wanting to say that my daughter and I recently travelled to Bali with extra luggage, seats etc and it was still cheaper than flying from Cairns to Rockhampton return.

It was also cheaper for my husband & I to fly to Christchurch return then Cairns to Rockhampton.

Bonza was the best thing to happen for regional flights and yet it wasn't assisted by the government yet others are. Absolutely ridiculous!

It is also extremely unsafe driving from Cairns to Rockhampton due to the roads etc! Too many accidents on the stretch between Mackay & Rockhampton.

Make it cheaper so we can travel for work and to see our families!!!
