Credit transfer and recognition of prior learning

In your experience, how well does the credit transfer and recognition of prior learning system operate in Australia? Does it adequately support students to move between courses or have their work experience recognised as part of a qualification? Are there ways it could be improved?

I have been fortunate enough to receive RPL for some units of study in Cert IV & Diploma studies which has not proven difficult, however wish that my experience was recorded throughout my career as it's difficult to even find past employers and managers to sign off on experience and therefore unnecessary extra study is required when consideration of future training.
