Improve school student outcomes with the best available tools and resources

What (if anything) needs to be done to improve the use of edtech tools (including GenAI) in schools?

School needs to be relevant to life.

A lot of what kids are forced to learn has nothing to do with life outside of school.

Tech should be encouraged ie drone, driving safely, ai, cyber. This will be their life

What more (if anything) needs to be done to improve awareness and access to high quality lesson planning and curriculum materials in schools?

Lessons are boring and stayed. My kids are not coming home full of the joys of spring. It's monotonous and boring at <name redacted>

Is there anything more you would like to say about edtech, GenAI or lesson planning and curriculum materials?

Funk it up!

Do excursions,

Incursions, demos,

Show, demonstrate, get active
