Support the workforce through a flexible post-secondary education and training sector

Credit transfer and recognition of prior learning

In your experience, how well does the credit transfer and recognition of prior learning system operate in Australia? Does it adequately support students to move between courses or have their work experience recognised as part of a qualification? Are there ways it could be improved?

not well- the very onerous and task specific requirements of assessment under ASQA standards, and Training Package riels & requirements have created a system wide block that makes it almost impossible for Learners from a TEQSA accredited program (HE Diploma, Associate Degree or Degree) to receive credit or recognition mapped against vocational qualifications under current constraints and ASQA obligations for assessment conditions

Which of the following best describes you? Please select all that apply.
