1. Support business investment through corporate tax reform

1. What features of the Australian business environment have encouraged or restrained investment over the past 10 years?

The participant did not respond to this question.

2. What elements of the corporate tax system encourage and/or discourage investment and risk-taking?

Collect GST on imports to make price competitiveness more fair for local businesses.

3. Which parts of the corporate tax system do you find the hardest, or most time or cost-intensive to comply with? How could the compliance burden of the business/company tax system be reduced?

The participant did not respond to this question.

2. Reduce the impact of regulation on business dynamism

1. What areas of regulation do you see as enhancing business dynamism and resilience? What are the reasons for your answer?

The participant did not respond to this question.

2. How has your regulatory burden changed over time?

The participant did not respond to this question.

3. What regulations do you find time-consuming, overly complex or otherwise constraining business dynamism and resilience? What are the reasons for your answer?

The participant did not respond to this question.

4. Can you share any specific examples of where you think a regulator has done a good or bad job of understanding and reducing regulatory burden on businesses and why?
