Participant background

1. For the purposes of this consultation, which of the following best describes you:
I am a consumer or user of care services (consumer)
2. Which of the following care sectors will your feedback relate to? Please select all that apply.
Aged care; Disability
3. What kind of care supports, services and programs do you have experience with, and in what jurisdictions?
The participant did not respond to this question.

1. Reform of quality and safety regulation to support a more cohesive care economy

1. To what extent do differences in quality and safety regulation make it costly or complex to provide or access care services?
Somewhat
2. What are the reasons for your answer?
Unsure, but guessing differences in Commonwealth, State, & LGA jurisdiction regulations, result in difficulties aligning delivery of cost effective services.
3. To what extent should quality and safety regulations be more aligned across the different care service sectors and jurisdictions?
To a great extent
4. What are the reasons for your answer?
Ease of use both administrative & in practice at community level.

2. Embed collaborative commissioning to increase the integration of care services

1. What is your experience with collaborative commissioning
A little with Case Manager coordinating aged care services for elderly parent in home.
2. What are the benefits of pursuing greater collaborative commissioning?
Greater efficiency between service delivery, ie left hand-right hand cross referencing to avoid duplication and ensure access to most appropriate care maintained.

3. What are the barriers to collaborative commissioning, and do you have any suggestions for solutions that would lead to better collaboration in the commissioning of care services?

Jurisdiction based, ie three different levels of Government provision bound by their respective regulations.

3. A national framework to support government investment in prevention

1. What are the main barriers to governments investing in evidence-based prevention programs across the care economy?

The participant did not respond to this question.

2. What are some examples of successful prevention programs (this could include discontinued programs)?

The participant did not respond to this question.

3. How can governments better support investment in prevention activities that have broad and long-term benefits for the Australian community?

The participant did not respond to this question.
