Hi s 47F

I'm working on the PC's inquiry into Investing in cheaper, cleaner energy and the net zero transformation.

We released an interim report in August with content on emissions reduction incentives in transport, including some commentary on road user charges and fuel excise.

I understand you're the Director of the Road User Charging Group. Would you have time to meet at an officer level next week for a conversation about the interaction between those topics?

Kind regards
Lou
