

I am a volunteer Scripture teacher in the local schools, and I have been buying old educational Bible related picture books from outside Australia, which I use for teaching, and I am also digitizing them to create a free educational resource for other Scripture teachers. This kind of books are not available in Australia, most have been published in Europe or USA. I would like to suggest that used books and educational material be exempt from any extra taxes. Since education is after all for the betterment of future generations, and we should do all we can to make the future of Australia bright for for future generations! Thank you.
