## Section 1: Entity overview and resources

### 1.1 Strategic direction statement

The Productivity Commission (the Commission) is the Australian Government's independent research and advisory body on a range of economic, social and environmental issues affecting the welfare of Australians. The Commission's work encompasses all sectors of the economy as well as social and environmental issues. Its activities cover all levels of government responsibility – Federal, State and Territory and Local.

As a review and advisory body, the Commission does not have responsibility for implementing government programs. It carries out inquiry, research, advising and incidental functions prescribed under the *Productivity Commission Act 1998*.

The Commission contributes to well-informed policy decision-making and public understanding on matters relating to Australia's economic performance and community wellbeing, based on independent and transparent analysis that takes a broad view encompassing the interests of the community as a whole, rather than just particular industries or groups. The Commission has four broad components of work:

- government commissioned projects
- performance reporting and other services to government bodies
- competitive neutrality complaints activities
- self initiated-research and statutory annual reporting.

In 2022–23 and the forward years, the Commission will continue to examine a variety of economic, social and environmental issues through its public inquiry and commissioned research. Commissioned projects underway include public inquiries into *Australia's Productivity Performance (The Productivity Inquiry)*, *Carers Leave*, and *Australia's Maritime Logistics System*, and studies into *Aboriginal and Torres Strait Islander Visual Arts and Crafts*, and the *National Schools Reform Agreement*.

The Commission will also operate the Performance Reporting Dashboard and undertake further reviews of nationally significant sector – wide Commonwealth-State agreements. In addition, the Commission will fulfil the legislated role to report on water plans and initiatives nationally and in the Murray-Darling Basin.

The Commission will continue to provide cross-jurisdictional reporting on the performance of government services; indicators of disadvantage experienced by Aboriginal and Torres Strait Islander people; and expenditure on services to Aboriginal and Torres Strait Islander people.

As part of its functions under the *National Agreement on Closing the Gap*, the Commission has developed and maintains a publicly accessible dashboard and annual data compilation report, underpinned by an information repository to inform reporting on progress on Closing the Gap. The Commission has also commenced the first independent review of progress, which will be complementary to an Aboriginal and Torres Strait Islander led review. Both reviews happen every three years.

The Australian Government Competitive Neutrality Complaints Office (AGCNCO) is an autonomous office located within the Commission. It receives and investigates complaints and advises the Treasurer on the application of competitive neutrality arrangements. AGCNCO also provides informal advice on, and assists agencies in, implementing competitive neutrality requirements.

The Commission has a mandate to undertake research to complement its other activities. A full list of the Commission's research reports and supporting research is provided on the Commission's website.

## 1.2 Entity resource statement

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to the October *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

## Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The Commission's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

**Note:**

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance measure described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for the Commission can be found at:  
(<https://www.pc.gov.au/about/governance/corporate-plan>).

The most recent annual performance statement can be found at:  
(<https://www.pc.gov.au/about/governance/annual-reports>).
