

Dear Productivity Commission,

I am 62 and have found it very difficult to find any sort of work for the past 15 years. Companies will not employ people over the age of 40. The vast majority of the worker will never be employed full time again like me and will be on and off benefits till they will be retire or can access what little super they have saved.

As a Victorian our whole economy will be devastated there is no such as a trickle down effect only a triple up effect when the people at the bottom have money every one has money.

We will go into recession

I will never find another job

Kind Regards,  
Peter White
