

Dear Productivity Commission,

I am a 35 year old wife and mother of two. I work full time and have a mortgage on the home my husband and I have recently built

If the auto industry in Australia was to shut down the effect it would have on me and my family is unimaginable. Both my husband and I work at Holden in Elizabeth. I have worked there for over 11 years and my husband has worked there for nearly 25 years. It is our bread and butter. Without our jobs, we have nothing. Not only will it affect us financially, I fear it will have an impact on us psychologically as well, not to mention the impact it will have on the whole of the northern suburbs of Adelaide. These are our lives and our home.

Not only will this affect people such as my husband and myself whom are directly employed by an Australian car manufacturer, this will have a devastating affect on 200,000 other people who stand to lose their jobs as well.

You are not just talking about closing businesses here. These are our jobs. Our lives.

Kind Regards,
Kylie Hatchard
