

Dear Productivity Commission,

I'm married with 2 children and I have a mortgage

The impact on the manufacturing industry as a whole would have a devastating affect on Australia's greater economy. They have a name for countries without a manufacturing base and it's '3rd world'.

It would deal a crippling blow to the economy, we cannot survive digging holes in the ground!

Any government that fails to support the auto industry will never get mine or anyone else I know to vote for them again!

Kind Regards,
Michael Nesbitt
