

Dear Productivity Commission,

Married, Mortgage, Munchkins (2 children)

I work in the Auto parts supply industry. If Holden and Toyota go, you have to pay me the dole as i wont have a job.

Tens of thousands of people like me will be lining up for the Dole or i will have to take my skill set overseas, Australia's loss.

The Mrs. will fret, I will possibly have to sell the house and the kids will be upset as we have to move house and school and they will want to know why Mum and Dad are not so happy anymore. Keep the auto industry going it will cost less than all the Dole payments you will have to fork out.

Kind Regards,  
Brian Storrar
