

Dear Productivity Commission,

I am an online political activist, I support Australian jobs/products.

It will affect us all, not just the people in the industry.

The more people employed, the more people off the dole and the more people paying tax  
&ldquo;double win for the country&rdquo; and the more people spending and thus creating  
and keeping other people in jobs &ldquo;a win for us all&rdquo;.

The auto industry employs many people and has a flow on affect to other companies which  
keeps people in jobs. It&rsquo;s not a hand out to the auto industry because it&rsquo;s an  
investment into jobs and future jobs of all types.

Kind Regards,  
George Naumovski
