

Dear Productivity Commission,

Full time student, admin of www.facebook.com/holdenisaustralian

I'll lose a sense of culture, passion, pride.

Thousands out of work, and for almost everyone of them there would be one or more people relying on their income (such as children). We would lose a sense of pride in manufacturing. New car costs will increase as imports won't have local competition to price beat.

I'll lose a sense of culture, passion, pride. I don't want to lose anything.

Kind Regards,
Matthew Brokenbrough
