

Dear Productivity Commission,

I am a working mother with three children , one of them had down syndrome. I am married and have a mortgage .

My husband has worked in the auto components industry for the last 15 years . It would be devastating for him to lose his job for our family. If no support is given , where will all these people find work . THESE JOBS ARE LOST FOREVER!! With most jobs you apply for now are casual, how much uncertainty should be placed on families just to pay a mortgage and put food on the table !!!!

Our country's future must be about making things here.MANUFACTURING OUR OWN IS SO IMPORTANT. We as a country rely more and more on imports .

This issue should be raised at the highest level .  
I can only hope that the workers are not the ones  
To pay for a POOR decision made by government .  
Thank you for your time.

Kind Regards,  
Judi Blackwell
