

Dear Productivity Commission,

Like many others I have a mortgage and children. As well as a general consumer debt.

I feel for the people that do work in the industry or parallel industries as this can have a major impact on many families right down to the children who are already going to be negatively affected by scrapping the Gonski reforms and other programs.

This government needs to take a long hard look at themselves and realise that what they are doing is UNAUSTRALIAN to say the least.

Australia has been manufacturing motor vehicles for a long time and it has been the lifeblood of many hard working Australians. This needs to carry on so Australia can show the world we are leaders in the industry and it is part of our culture. Destroying culture will destroy the governments credibility.

It is important to me because it affects so many Australians and there family and TRUE AUSTRALIANS stick together.

Kind Regards,
John Fitzgerald
