

Dear Productivity Commission,

I'm a single parent. I drive a HOLDEN Commodore. I encourage people to buy Australian where they can.. I'm proud that Australia has the brand Holden!

I will no longer be able to buy a new Holden.. I love Holden!! We need to continue manufacturing Aussie built cars! We need to continue to encourage Aussies to buy Aussie!! We need manufacturing in Australia for jobs and for our future, for growth and for our next generations!!

It's a disgrace!!! We need our car industry!!!! It's vital to have cars built and components built here in Australia!!!! We want future growth.. we need to continue car manufacturing!!

It's vital to me. I love the brand HOLDEN!!! I won't drive anything else! We need this brand to continue! What are we going to do when both Ford and Holden are dead and buried.. Drive BMW's made in Germany?? How's that going to benefit our economy? How is that going to give Aussie's jobs??

Kind Regards,  
Julie Carroll
