

## **Metalsa Australia Supplementary submission**

19 February 2014

Dear commissioners,

As per our conversation today in regards to assistance to the supplier base for the automotive industry today.

I take this opportunity to summarise the two points that we ask you to consider in your Final Report to the Government.

Point 1: For the Government to create the conditions for suppliers to export successfully.

Point 2: Continuation of the ATS (or some form of assistance) up to 2025 to expand our portfolio of non-auto customers domestically.

Regards Murat Kiremitciyan.
