INQUIRY SUBMISSION** *

Today's THIRTY page facsimile presents evidence that collapses attempts to destroy my credibility. It is my view Professor Snape and Mr Simson should agree that I am right and that the failed attempt trying to do that double strengthens my credibility - reason why they should bring my submission to the nation's attention through mention at the Inquiry without my need to appear and if I was to appear - if it will not be reported on then there's no point my applying to appear.

Dear Professor Snape & Mr Simson,

27/32

Today's THIRTY page fax presents further evidence providing more proof of the nasty predicament I am in due to evidence submitted to 35-Inquiries which has inspired those the evidence is against to place my safety - welfare and credibility at high risk to facilitate the political censorship of that evidence.

Now that I have been able to complete the first half of my submission to the ABA's Cash-for-Comment Inquiry - I can now turn my attention to addressing the Broadcasting Inquiry's draft report which I will start on after the weekend that gives me up to the 29th of this month to complete it which is not enough time although I will get some of it done.

Please note that I would like to appear at the Inquiry's Sydney Hearings to further elaborate on my submission's evidence which proves the existence of Packer & Murdoch's secret master gameplan for concentration of the nation's media and telecommunication's industry between them including indirect acquisitions of assets that are forbidden fruit to them by the present cross media and foreign ownership rules.

BROADCASTING INQUIRY

24/30

PAGE THREE OF THIRTY - 18/11/99

This evidence should it come to public attention and be accepted as proving the claims my submission makes - then would mean that Packer & Murdoch would be compelled to stand aside from the running of their media-telecommunication's empires with sections of them sold-down to much more modest holdings to allow more competitors and competition into the industry.

As the draft report recommends that more competitors must enter the media telecommunications industry first before the removal of the cross media and foreign ownership rules takes place - the Broadcasting Inquiry should not have any problems with my evidence coming to public attention resulting in the brakes being placed on Packer and Murdoch's secret alliance.

It is also my intention to debate the reasons why deregulation and market forces despite the "British-rule" being applied will not prevent Packer and Murdoch from further concentrating media and telecommunications industry into their hands and not increase the number of competitors to a healthy desirable competitive level.

At this stage I have amassed a large amount of research material related to the Inquiry's draft report but have only been able to manage a cursory glance at it. Whilst I would like to appear at the Sydney Hearings it would preferably be on the proviso that my attendance and the discussion did not go unreported. This in my view would be due acknowledgement of the huge effort on my part of making so many submissions particularly to media inquiries and the diligence and dedication involved. It would also provide those my evidence is against the opportunity to champion fair-go and freedom of speech.

Twenty-five pages were faxed through between 4.27am and 4.47am in four lots (1) 2 - OK (2) 12 - ERROR (3) 7 - ERROR (4) 3 - OK. QUESTION - ONLY 24 OUT OF THE 25 PAGES MADE IT THROUGH. WHICH PAGE DIDN'T MAKE IT AND DID ALL THE OTHER PAGES COME THROUGH OK ?

MESSAGE TO JOHN CORKER - GENERAL COUNSEL

Today's **twenty five** page facsimile sent very early this morning is evidence defending the credibility of not only my submission to the ABA's cash for comment Inquiry but also of my submissions to 35-Inquiries over past 13-years. This evidence collapses the attempt to destroy my credibility and the failed attempt to do so provides more evidence strengthening it. It also serves to prove that the Cash-for-Comment scandal is a smaller part of a much larger national scandal. This fax also poises me on the cusp of submitting evidence concerning NSW PIC's Hearings related to Roni Levi shooting which I am near completion and starting on my submission's response to the Broadcasting Inquiry's draft report whilst at same time preparing further evidence to complete my ABA-Inquiry submission related to the Alan Jones segment of the Inquiry's Hearings which I've had to put on hold. As I have submissions on three fronts and have had to defend my credibility re Vets' Review Board please bear with me.

PAGE TWO ^{ABA} **OF TWENTY-FIVE 18/11/99**

Second amendment to the last five lines of the first paragraph of the last page of the eighteen page facsimile faxed on Monday 8th November is as follows:

..... **RONI LEVI AND BOTH THE TWO POLICE OFFICERS WERE ALL SEPARATELY DINING WITH THEIR FRIENDS . IN BONDI ON THE NIGHT BEFORE THE SHOOTING.**

Additional to above five lines is the following:
On the night of the shooting

- (1) The married police officer Dilozenzo was having dinner at his Bondi home with friends - a traditional fish & chips night.
- (2) The single police officer Podesta was having dinner with friends at a Bondi restaurant a few streets away from his long-time friend and fellow police officer Dilozenzo's home.
- (3) Roni Levi was having dinner with friends at their Eastern suburbs home - either in Bondi or fairly close to Bondi.
- (4) Roni Levi had been scheduled to have lunch at the Bondi home of a journalist and his wife after the time he had been shot. *Roni Levi's flat in Bondi was just around the corner from Bondi police station.

*** The single policeman Podesta had a flat in Waverley which is near Bondi - although at the time he was staying at his parents home - (WHICH COULD BE IN BONDI OR NEAR BONDI)**

The point which can be made here is that the two Bondi Police officers Dilozenzo & Podesta and victim Roni Levi all "knew each other without knowing each other" i.e. knew each other by sight and may have even said hello or chatted in a cafe and that the two policemen knew that Roni Levi was a media cameraman before the shooting and maybe even more than this.

Thursday 18th November 1999

Dear John,

It was on the same day as Professor David Flint's big "boo-boo" appearing on 2UE's John Laws show on Monday 1st November at the start of the ABA Inquiry's one week adjournment that I received out of the blue - Veterans' Review Board Registrar Peter Studman's letter dated 29th October which has suddenly drawn me into answering his letter and preparing final-material for my appeal.

This has forced me to change tack and held up my sending the four page DECODED STATEMENT as well as immeasurably inconvenienced my submission which I have to prepare addressing the Productivity Commission's draft report with my application to appear at the Sydney Hearings on December 6th sent with it.

The arrival of VRB-Registrar Peter Studman's letter however opens up the opportunity for me to establish evidence proving that Dr Dinnen's recent psychiatric assessment earlier this year different to that which has stood for 28-years was a huge mistake by him effectively destroying my credibility rendering the evidence of my numerous submissions null and void - and that instead of detracting from the value of my evidence this new evidence double strengthens it through proving Dr Dinnen had completely erred which did those my evidence was against a very big favour.

PAGE EIGHT as Mary 18/11/99 - BROOKS INQUIRY

PAGE FOUR OF ABA TWENTY-FIVE 18/11/99

If I had replied to Peter Studman's letter without presenting this reply to it - this would have meant Veterans' Review Board had no other option but to rubber stamp the new psychiatric assessment destructive of my credibility.

Peter Studman's offer of the option to have someone else write on my behalf was the appropriate prompter for such new evidence without which I could not have begun to present it - his reply therefore providing the opener for it and for which I thank him.

THIS NEW EVIDENCE BEGINS AS FOLLOWS:

Most of the 202-page PART TWO of my Broadcasting Inquiry submission was devoted to focussing on

(1) the June 17th interview with Dr Dinnen and dissuading him from adding the word PARANOID which he had added earlier this year to the assessment of Personality Disorder on my Veterans' Affairs records that was an assessment which had stood for **twenty-eight** years which stated that I had no mental illness but that I had a Personality Disorder condition. He had added the word PARANOID to my assessment after I had sent him all the information necessary for him to make an assessment without it being in my view necessary for me to have to attend the interview personally.

(2) thwarting attempts by NSW Housing Department trying to force me out of the frying pan into the fire as recorded in Highly Confidential Information presented in my submissions and which was a new updated attempt coinciding with my receipt of a letter from Department of Housing dated 17th August last year which was the 18th anniversary of the Azaria saga and time at which Mrs Chamberlain returned from America with her second husband to live in Australia close to where Mr Chamberlain and his second wife and new baby daughter ZARAH much like the name Azaria were living.

T-P. 9/30

PAGE NINE OF PART TWO 18/11/99 - BROADCASTING INQUIRY

PAGE FIVE of ABA TWENTY-FIVE 18/11/99

(3) surprise moves against me from the local Chamberlain Innocence activist camp straddling the widespread appearance in the news of Lindy Chamberlain appealing for DNA-tests to be undertaken on Azaria's jump suit & matinee jacket **five days before the June 17th interview** with Dr Dinnen that had been set two months before the interview took place.

The addition by Dr Dinnen of the word PARANOID to the original assessment that had stood for **28-years** this time provided extra impetus to the discounting of my claims of opposition moves against me as utter nonsense.

with both (1) (2) and (3) above breaking the natural continuation of my Broadcasting Inquiry submission and therefore becoming evidence of the big-bump pushing me away from submission material proper which at that time was adding to my address of the Inquiry's Issues Paper and further presentation of the evidence of Packer and Murdoch's secret master gameplan as events unfolded in the news.

There was no justifiable reason for Dr Dinnen to add the word PARANOID to the original assessment of Personality Disorder which on its own was a behavioural condition and not a mental illness one that the addition of PARANOID made it become - as Dr Dinnen was fully aware that I had competent oral & writing communication skills and that I had never been to a psychiatrist other than two obligatory times **28-years ago** and had never had the need to be prescribed psychiatric medication in my entire life and that I was involved in submitting evidence to numerous inquiries resulting in hundreds of replies positive in nature.

Dr Dinnen also had to step outside his area of expertise to assess whether or not the evidence I had submitted to at that stage to 33-Inquiries warranted me fearing severe retribution either as

T-P. 10/30

PAGE TEN of many - 18/11/99 - PROMOCASTING inquiry

PAGE SIX of ABA TWENTY-FIVE 18/11/99

(1) the evidence was dangerous to those my evidence was against or

(2) even if my submissions did not provide dangerous evidence - those my evidence was against who believed Australia had already crucified them enough would find moral justification for unmitigated retaliation against me for adding despicable insult to injury. The other side of the coin also was that if Dr Dinnen had made an error of judgment in his assessment then he was doing those my evidence was against a very big favour trebling the increase in my justifiable apprehension.

As Dr Dinnen had added the word PARANOID earlier in the year prior my June 17th interview with him - I had to cover myself through faxes to numerous recipients including the Prime Minister's office and NSW Police Commissioner's office prior during and after the interview with Dr Dinnen and provide for myself a witness to be present at the interview with Department of Veterans' Affairs and Veterans' Review Board and Dr Dinnen's permission which was granted all round.

If I had gone to the interview alone

(1) Dr Dinnen would not have slightly altered his assessment of PARANOID PERSONALITY DISORDER as he did by placing a parameter around it stipulating that his assessment could only be used for the purposes of my VRB-appeal - and

(2) it provided additional scope for Dr Dinnen to do a bigger favour for two of the nation's most influential persons my evidence was against who would have undoubtedly honed in on him - by creating circumstances at the face to face interview in which he would have had me walking on hot coals and without a leg of credibility to stand on with my word against his amounting to zilch - allowing him to character assassinate me as well and with which I would have been hopelessly albatrossed.

PAGE ELEVEN of MANY - 18/11/99 - BROOKS INQUIRY

PAGE SEVEN ^{ABA} **OF TWENTY-FIVE 18/11/99**

Dr Dinnen in the June 17th face to face interview was himself self-admittedly PARANOID fearing I would be nasty towards him which he repeatedly stated wasn't happening as he had expected. Even though my having a witness present during the interview was highly unorthodox and the first time for him - it was a very placid pleasant interview without there being any reason for him to be fearful in any way shape or form as noted in his assessment report. Dr Dinnen was also aware through my Department of Veterans' Affairs file that I didn't have a nasty nature and had no history of it and that my particular Personality Disorder was the antithesis of that and that at the interview I did all the speaking for myself whilst Dr Dinnen at all times remained at ease with my witness present during the interview without contributing to the discussion.

It became obvious that not only was Dr Dinnen hopelessly wrong about me - he was also acting as though he had a very guilty conscience about something which he was not prepared to divulge. The fact of the matter is - that Dr Dinnen could only have assessed me as being Paranoid if he had proof that I was not really a person who made submissions to dozens of Inquiries and the material he was aware of under my pseudonym was merely part of a quixotic masquerade charade game that I was going through as a psychotic gimmick to

- (a) prop up a degenerated ego lacking in self worth - and
- (b) arm myself with a defence mechanism usable when delusionally threatened to pull rank on someone.

Today' TWENTY FIVE page fax MINUS the cover page will be mailed to Veterans' Review Board & Dept of Veterans' Affairs registered post and Dr Dinnen's four pages faxed to him.

Dear Mr Bellas,

I refer to your application to the Board for a review of the Repatriation Commission decision 5 June 1996 in respect of personality disorder.

The application has been outstanding for more than 2 years and I consider that you should be ready by now to proceed to a hearing. Therefore, in accordance with section 155AA(4) of the Veterans' Entitlements Act, I am giving you this written notice requesting you to provide within 28 days a written statement that you are ready to proceed at a hearing or reasons why you are not so ready. The statement must be signed by you.

However, you may authorise another person to represent you in relation to this notice. Such authorisation must be in writing and on the enclosed form. You should not send this authorisation back to me. You should give it as quickly as possible to the person you have authorised so that he or she can send it to me together with the statement I have requested within the 28 days allowed.

If the required statement is not provided within 28 days after you receive this notice, or I consider that the statement provided does not contain a reasonable explanation for your failure to be ready to proceed at a hearing, the application will be dismissed. This means that the matter is then finalised.

If you no longer wish to proceed with the application, you should notify me in writing and I will arrange for it to be withdrawn.

Dear above,

Thank you for the letter dated Friday 29th October from Mr Studman that I received on Monday 1st November. This response is a written statement from me acknowledging that I have no choice but to say I am ready to proceed to a hearing as the Veterans' Review Board cannot delay it any longer.

It is also entirely unnecessary for me to authorise another person to represent me in relation to the 28 day's ultimatum as it should have been quite obvious from my previous correspondence with Veterans' Review Board that I am quite capable of writing on my own behalf.

**Therefore - along with this letter stating I am ready to proceed to a hearing I am also including letters from the following persons
(1) Dr Ross Hindmarsh (2) Social Worker - Michelle Gravalin
(3) Glebe Post Office manager - Mario Alosi (4) Aviweb Printer's owners - Allan & Christine Brown (5) Glebe newsagent - Albert Hernandez.**

PAGE TEN ^{ABA} ~~OF TWENTY-FIVE~~ 18/11/99-ABA

All these letters attest that I - Nick Bellas use the pseudonym Tony Paynter in relation to submissions to Federal & State Parliamentary Inquiries and Royal Commissions - that is - Nick Bellas and Tony Paynter are one and the same person and prove in my view that I am quite capable of writing on my own behalf.

I therefore have included my most recent letters received in relation to submissions to Inquiries underway at the present moment - namely (1) Productivity Commission's Broadcasting Inquiry (2) Australian Broadcasting Authority's Cash for Comment Inquiry

From all these letters you will also gather that my personal safety and welfare are at risk due to my involvement in political matters starting in late 1992 seventeen years ago at which time the precarious position I was in became official preceeded by a phase dating back to war service.

The Department of Veterans' Affairs and Veterans' Review Board have been ambivalent in relation to my claims - on one hand being very patient with me whilst on the other hand treating them as nonsense leading to the situation whereby my application has been outstanding for more than two years. Due to all of the above - there are **EIGHTEEN PAGES** of my 204-page submission to the Australian Broadcasting Authority's Cash-for-Comment Inquiry that give an update of my precarious position behind the scenes including one page very briefly covering the Dr Dinnen interview.

Along with this letter stating that I am ready to proceed to a hearing I am sending a copy of the letters mentioned above and a brief introduction to my ABA-Inquiry submission so that the Board will learn what the evidence is that is endangering me and that that endangerment extends back thirty years to war service as presented in my appeal and in some Inquiry submissions.

The Board should therefore accept what I am claiming is correct and adopt an open minded neutral stance about the endangerment imposed on me for oppressive political reasons related to my submissions which present evidence that exposes why all politicians and the nation's two major media barons are subject to deep seated mistrust by the nation in general.

It stands to reason that this betrayal did not happen overnight but was a gradual slow process that had crept up on the nation over past three decades to its present level - now becoming increasingly ever more nakedly obvious to the point there's a whiff of it in the air due to the Laws & Jones Cash-for-Comment Scandal and the Olympic's Tickets scandal preceeded by a string of lesser major scandals leading up to this latest double-blow behind which was draped the scandalous lies by the elites of both sides of the republic referendum debate which also heavily involved the ABA's Cash-for-Comment Inquiry in that heated tug of war - peaking with the Chairman of the Inquiry Professor David Flint who was also a leading player in the Australians for Constitutional Monarchy Movement being forced to stand down after his participation on 2UE's John Laws show to defend himself against Bob Hawke's accusations during the one week adjournment in the Inquiry's hearings that was an adjournment raising many questions.

Also we had republican John Laws and his republican media agent John Fordham versus leading monarchist Alan Jones outnumbered through his partnership with his republican media agent Harry M Miller the "ethnic with the anglo saxon name" who is also Lindy Chamberlain's agent.

Note: It was also on the day of the November 6th republic referendum that there was news coverage on the release of man-of-God Michael Chamberlain's new book "Beyond Azaria - Black Light White Light".

The release of Michael Chamberlain's book had followed the earlier September news report about Aidan Chamberlain's marriage to his stepsister next year.

What also assists to prove that Nick Bellas pseudonym Tony Paynter are one and the same person is my newly acquired fax machine purchased with yearly \$500.00 loan against my pension and the transfer of the phone line to me under my name Nick Bellas by the leaseholder and co-tenant. In the twenty years that I have lived in Sydney - last eight of which have been at 82 Campbell Street Glebe is the first time I have been in a position to be able to have my own phone line. Because the leaseholder had a large outstanding Telstra debt from before I moved in and there wasn't a phone here for the first five years and when the leaseholder did put the phone on in 1996 he was only allowed incoming calls service - this meant it has taken me three years to receive leaseholder's permission to allow me to have the phone line transferred over to me thus freeing me from having to use Aviweb Printers where the cost for a fax is two dollars for the first page and one dollar for every other page which cost-wise severely hampered my submissions particularly when I was bumped mid-submission and had to use up my resources defending my credibility and welfare and safety.

Now that I am able to fax these pages from my own fax machine on my own phone line "N BELLAS T PAYNTER" will appear on pages coming through the fax machine at your end and with Aviweb Printer's fax number 9692 9610 with it - as I cannot afford to use up the roll of fax paper too quickly receiving faxes.

FOUR-PAGES - 59 and 118 to 120 briefly present the general betrayal of the national interest referred to recently by the Prime Minister in relation to East Timor whom Australia had betrayed because Australia had been betrayed itself and former Prime Minister Paul Keating's piggery sell off to Suharto cronies and secret military agreement with the Suharto regime and his continuing defence of that regime up to the very present and also the gradual running down of our defence forces whose small size and inadequacy was exposed by the military contribution Australia had to devote to East Timor.

Dear Sir/Madam,

Fax: 9552 9650. REFERENCE: Nick Bellas (pseudonym Tony Paynter),
c/- PO Glebe 2037, Phone: 9552 4682 Date of Birth: 08/07/1949
Medicare No: 2129551162

I am writing a medical report as Nick Bellas's general practitioner in support of his application for accommodation. He suffers from War Service Disability for which he has Department of Veterans' Affairs pension. He requires support of people he knows and medical care from me and Glebe Community Care, especially at times when he is anxious about his personal safety. He is concerned about his safety in relation to submissions to Federal and State Parliaments. He would like to have a place in his name so he has security of tenure and feeling of control and choice over his situation. He is at present time with Michael Conduit and although he has been given reassurance that his position is secure he is still dependent on Michael Conduit.

I would support his application for a two bedroom place in his own name in the Glebe area as close as possible to present neighbours who are a source of security and support for him. This would allow him to have someone of his choice to live with him especially at times of anxiety. I am concerned about his long term emotional and mental stability.

Sincerely,

Dr Ross Hindmarsh

Dear Madam/Sir

EIGHT OF TWELVE
DINNEN - 19/11/99

RE: Mr Nick BELLAS (Pseudonym: Tony Paynter) ←
c/- Glebe Post Office
GLEBE NSW 2037

This is a letter of support for Mr Bellas' application for accommodation.

Mr Bellas continues to be concerned about the security of his tenancy. He has consistently expressed the desire to have his name on the lease at his current address. As it has not been possible to gain Joint Tenancy, he now wishes to apply for separate accommodation in his own name.

Dr Hindmarsh has outlined Mr Bellas' medical situation and the conditions which would best support his well-being. Mr Bellas has well developed support systems in the Glebe area. It is important that any move to attain more secure tenancy does not compromise these support structures.

I support his application for accommodation in his own name, close to his current address, to ensure he has secure tenancy and maintains his current supports.

Thank you for your consideration of this matter. If you wish to discuss this further please contact me on Ph: 8585 5030.

Yours sincerely

Dear Karen,

Nick Bellas is the person who prepares his own typed material under the Tony Paynter pseudonym.

He has been a customer for over ten years at Aviweb Printers, using our photocopy and fax facilities for his submissions which absorb a lot of his time and effort in the hope of one day being a published author.

Yours sincerely,

Nick Bellas has a fortnightly account for four daily newspapers and also news-magazines which he has had continuously for more than sixteen years at Glebe Newsagency under his pseudonym Tony Paynter.

We know him by both his names and that he's involved in submissions to Inquiries. He has asked me for this letter for an appeal in relation to his war pension.

Dear Dr Dinnen,

Re: Nicholas Bellas - DOB 8/7/49
Ref: MSS 9665 VRB No: N96/2563

The situation has arisen through a letter dated 29th October from Veterans' Review Board Registrar Peter Studman which has requested that I either reactivate my appeal or let it lapse.

As I wanted to give you one last chance to either drop the word PARANOID from your assessment or adopt a "may/maynot be" neutral stance on it - before reactivating my appeal - I therefore offer you this latest opportunity which runs out at such time Veterans' Review Board accepts either your first assessment or your amended one or accepts that I have proven your assessment not only to be incorrect but also professionally unethical as well.

The only plausible way you could have feasibly assessed me as being PARANOID was if you were absolutely certain that I was not making submissions under the Tony Paynter pseudonym and that I was living a lie through using clever subterfuge to fraudulently create a researcher's persona and using it to bolster a complete lack of self esteem and strength of character due to war service related trauma.

I am able to prove that I use the Tony Paynter pseudonym with which to make submissions to numerous Inquiries through signed statements addressed to Veterans' Review Board made by relevant persons who have known me for many years verifying that Nick Bellas and submissions made under pseudonym Tony Paynter are one and the same person - myself.

The following referees are:

- (1) Doctor Ross Hindmarsh who has also verified that Nick Bellas and my pseudonym both pertain to me and that I use Tony Paynter in relation to submissions to numerous Inquiries.
- (2) Social worker Michelle Gravalin who has visited 82 Campbell St and has attested to my use of pseudonym Tony Paynter for submissions to numerous Inquiries.
- (3) Glebe Post Office manager Mario Alosi who verifies that I have collected mail under both my names at Glebe Post Office for twenty years c/- PO Glebe and rely a lot on Registered & Express Post services for my submissions to numerous Inquiries.
- (4) The owners of Aviweb Printer's next to Glebe Post Office Allan and Christine Brown who've known me as a customer for over ten years using their photocopy and fax services and who have faxed many facsimiles to and received many facsimiles from - numerous Inquiries for me.
- (5) The owner of Glebe Newsagency Albert Hernandez who can vouch that I have had a fifty dollar fortnightly account for newspapers and magazines for many years under my pseudonym Tony Paynter and was aware of my real name Nick Bellas.

- (1) Department of Veterans' Affairs - and
- (2) Veterans' Review Board - NSW - and
- the two Inquiries I am currently submitting to
- (3) Productivity Commission's Broadcasting Inquiry - addressing the Inquiry's draft report -and
- (4) Australian Broadcasting Authority's Laws & Jones Cash for Comment Inquiry to which I have presented much evidence

The proof is further underscored by fact that I have not adopted any false titles or qualifications to fraudulently bolster my persona as a researcher submitting to Inquiries as I have not added anything of that nature at all to my pseudonym.

My lack of title/qualifications in my view would have been silently seized on by you as your proof to yourself that I was falsely pretending to be someone I was not which is why you assessed me as being Paranoid. This flies in the face of ample worldwide evidence of dozens of university dropouts later in life carving out successful careers and making numerous discoveries and inventions through unacknowledged self education and simply lacking the piece of paper making official their expertise. We also have former Prime Minister Paul Keating and Talkback King John Laws being school dropouts at fifteen years of age and Australia's foremost author Peter Carey failing University entrance and Henry Lawson whose writing was unreadable through atrocious spelling and only readable to those who rewrote his works for him.

 My proof that your assessment is absolutely and unequivocally incorrect also proves that what you have done is entirely insulting of the Australian character that is supportive of the underdog defying the odds. You have also committed the Cardinal Sin of Research by silently accusing me of assuming more about myself than I rightfully should when the truth is the exact reverse and you are proved guilty of what you have silently accused me of

You therefore have the opportunity to amend your assessment by either dropping PARANOID from your assessment altogether or retreating to a completely neutral position on it stating that you don't know one way or the other because it is outside your area of expertise to determine whether I am being Paranoid or not as that relies on the final outcome of evidence currently in play and subject to political censorship.

The time you have to either make this decision as I suggest or let the opportunity pass runs out at the time Veterans' Review Board makes its decision regarding my appeal. If you do not alter your assessment as I suggest then I will be appealing to Veterans' Review Board and Dept of Veterans' Affairs to set aside your assessment and allow the one that has stood for 28-years that being Personality Disorder on its own to take precedence - as there is nothing to support your addition of the word Paranoid except "just because you think so".

The latest info on my situation is that I've had to dismantle the extra large dismantlable wardrobe in my room to make way for more storage space for my submission material which means I've had to put my "closet heterosexuality" on hold as the loss of the better sound effects has dampened my enthusiasm.

Wrygards,
 Nick Bellas

ABA - Laws & Jones Cash for Comment Inquiry Brief Introduction

.....
The Laws & Jones Cash-for-Comment scandal is part of a much bigger national scandal produced by Packer and Murdoch's secret Master Gameplan central to which was the Azaria Chamberlain news sensation that distracted and divided Australia throughout the greed 1980s decade continuing on into the 1990s and which was The-Biggie that was the jewel in the crown of a whole series of news sensation crimes and fraud/hoaxes that threw a dark cloud with a silver-lining over the nation for Australia's two major media media barons to cash in on and use as a sinister standover of the nation and facilitated the corruption of Australia's corporate political religious judicial & academic institutions allowing the two media titans through their secret alliance to entwine the octopus tentacles of their empires around the greater majority of the nation's media information industry and other non-media assets as well.

Packer & Murdoch's source of inspiration for their secret Master Gameplan was a world first computer programmed manuscript using Ayers Rock's atlas name as the key-card for it which was the secret behind the discovery and which produced a blockbuster manuscript that projected years ahead as a continuing work in progress and in which the crime-scheme blueprint for Australia's crime conspiracy of the century at Ayers Rock was The-Biggie which was the mainstream with hundreds of tributaries and tributaries of tributaries all fed from the one source.

29/32

John Laws and Alan Jones have been staunch Chamberlain Innocence supporters and Alan Jone's media agent Harry M Miller is Lindy Chamberlain's agent.

Because Packer employs Alan Jones and Murdoch employs John Laws and a lot of the Big Business involved in the cash for comment scandal deals was involved either directly or indirectly with Packer and Murdoch media organisations it was not Packer or Murdoch media that exposed the Cash for Comment scandal. Instead it was the ABC's Media Watch program which did the honours to bring the scandal to public attention. It is also the ABC's Media Watch which has had a running battle with Packer's "Mr Australia" Ray Martin who was very much tied in with unethical Chamberlain cheque-book journalism media deals and is a key Chamberlain Innocence champion supporter.

The Whole-Story is the suitably named Lamb-family all of whose members are super-secretive "holier-than-thou" strict moral code God fearing christians have through their ownership of 2UE been able to provide the perfect wall of respectability behind which to shield the Devilry with a capital D of the two undisputed Kings of Radioland that entailed pulling the wool over the nation's eyes in a stunt called the "Golden Fleece" built on talkback thriving on the bleatings of the Aussie battlers read human-sheep whilst the Lamb family kept an extremely-safe distance in the background ever ready to wash their hands of any involvement in the gross deception and betrayal of community standards supported by their horrified disgust of such outrageous goings-on they simply weren't aware of in their sheltered religious home divorced from worldliness

30/32

by the strains of hymns like Bringing In The Sheep if not the Hallelujah Chorus - when The-Truth is they were one big happy family all in it together in a highly secretive conspiratorial way under the wedge-tail eagle-eye shadow of the Packer and Murdoch media empires until the sheep-shit hit the fan when the cover was blown by naughty Auntie's Media-Watch who found out what 2UE had hiding in its great big Tucker-Baa-Baa-Bag - pardon the stutter. Kerry Packer in the past had owned 2UE but had to sell it to the Lamb family who've enjoyed great success holding onto the apron strings of the Packer and Murdoch media empires.

John Laws claimed he didn't change his mind about the banks because he was paid but because he had an opinion shift after the banks educated him about the Whole Story when they flies in the face of fact John Laws approached the banks to interest them in a cash for comment deal and his pet hatred of gambling did not inhibit his deal with Star City casino. It is also thinly disguised that the collusion was much more than that - that they were all in it together on who was to approach who and what the roles of all those concerned would be for damage control in case the news of what they were up to got out to the public much the same as in the Olympics Tickets scandal behind all of which were the Packer and Murdoch media empires. When a host of other radio tv and print-media personalities started piously bagging John Laws not only about what he did but also because he saw no wrong in what he did - the voice behind the golden microphone sent them all a grim warning about not pushing things too far as they all weren't cleanskins either and because it could open a can of worms which they all would live to regret. The can of worms Laws is talking about is that exposed by the evidence of my submissions.

31/32

Laws's new TV show... his ethics inquiry

ERROL SIMPER

TELEVISION may be allowed into the Australian Broadcasting Authority's public hearing into the "cash for content" commercial radio scandal and some segments could go live.

The authority's chairman, David Flint, said yesterday he had received formal and informal approaches for camera access and was still considering the matter.

So far as I'm able to ascertain, there's nothing which would legally prevent us from letting cameras in," Professor

Flint said. "So long as we're certain there's nothing to prohibit us from doing so, then it's a question of thinking it through a bit further before letting interested parties know."

Two television outlets, the Nine network and Sky News Australia, said yesterday they would be extremely interested in taking some or all of the hearings live and/or filming segments.

"We'd certainly be very interested in being able to provide pictures of basic journalistic justice being seen to be done," Nine's director of

news and current affairs, Peter Meakin, said in Sydney.

"Some of our programs, such as Sunday and A Current Affair, might like to have them of parts of the hearings while live coverage of, say, a specific segment or a particular witness, could interest us."

John Laws

Sky managing editor Tony Ritchie said he would be extremely keen on providing subscribers with live cover and

had notified the authority.

The most likely arrangement would be for a "pool" system, where a single broadcaster provided raw footage for those networks prepared to meet the costs. The general manager of news, current affairs and sport for Ten, David White, said Ten would be interested in such a scheme.

The authority is investigating the circumstances surrounding a deal for the Australian Bankers Association to pay the Sydney broadcaster John Laws - and/or his station, 2UE - for "positive" editorial comment. Other broad-

casters and commercial radio outlets may also come under investigation.

2UE chairman John Conde said he "hadn't anticipated" television coverage of the inquiry. But he added: "It's the authority's inquiry and we've said we'll co-operate fully."

There are several precedents for live coverage of such an event. The finding of the coronial inquiry into the death of Azaria Chamberlain was nationally televised, as was a Federal Court decision on a Maritime Union of Australia action last year.
