Australian government Productivity commission

Dear Commission, Deputy Commission Mr Paul Belin

And your last talk and explain responsibility and benefit for Australian citizens with disability in relation to inquiry on disability discrimination act and my submission DR289 plus very necessary copy of documents letters sent to you through this weekend in relation to evidence eleven years crime against my family against our freedom human rights and any passivity to have justice from the system we ask the commission to look everything what is possible to change the rogue system, system what not exist anywhere on earth.

In relation to that our family, Lamphud, Roman, Dolores , Dominick, we ask you for protection as a family of witness in relation to whole threat and discrimination by people from your system and people what doing that in 210 years and continue against us in more like 11 years.

As we mention before the whole evidence to be used by United Nation Human Rights Commission with support human rights commission in Democratic Europe Amnesty International On the European Parliament European expert of international law recommended by Brussels and all have to be present by member International Commission Of Jurists and we be inform with copy the rogue element of the arrogant intolerance dirty members Australian political system.

The whole important information we discuss with many legal representatives but is not many of them which have enough legal experience or chance to bring the claim against the criminals what creating the system but the whole problem is creating eleven years depression stress worry about safety our family lack of rest and after all with the systematic abuse by the System of public servants the most unhuman and rogue politician legal representative in this moment we have to stop for few days to have some break.

We done what we can in the at least 11 years to showing that the brutal system have no respect for citizens and inquiry like you that's only very costly and plenty money is payed for you department which I know from recent news paper advertising money what is taken away from Australian citizens and myself and in relation to many inquiry is absolutely nothing change the system is more corrupt more lie and is more unhuman.

In relation to your inquiry which is serious problem and connection with international law you should be hold in full responsibility for any abuse individual included our family members as we see now from some reports that's was beginning 1992. And the all evidence and information from many organization that you absolute now change anything to be better you simply is award but by huge income and what we understand that is only the reason what any commission in the brutal system is interesting but never ever as I know is defending interest of the public, public what pay for that.

The whole conclusion is that all of you creating puppet system which the arrogant on any parliament can scrap throwing to dump throwing to dump all submission like what we sent in the same way like the unlawful settlers what brutally ruling the innocence what they stealing from the everything throwing to dump all the true history and crime what they commit on the name British imperialist whatever they put the fit.

We discuss with Mr Paul, and is very confusing between what he said and what should be done and what for is the whole circus with this inquiry as we see in my 23 years here the system is far worse and corrupt as communist system before which I over through myself with my colleagues and make free and democratic Europe and is far more dangerous like any fascist system because killing people through man overing the private life molesting and creating political psychologist terrorism through mouth corruptly trained Anglo- Saxon what occupied the top public officers.

that's is relative many places where in past the imperialist system destroying human civilisation human rights culture and rob everything what is only possible to fit up the imperialist kings of England. This whole element what commit crime in last three centaury is concentrated in Australia system because the law still recognise genocide. And is very well protected by the federal attorney general department because he sis commit crime against

refugee and the prime minister thought all the political record. The most rude and arrogant people which most of them change name on English is the criminals what occupied Indonesia they was suck very easily by the Anglo Saxon regime what need support and today hiding the faces behind immigration programs behind immigrants to creating safety net for cover up the own crime in past and abusing innocent immigrants what suffering before and stabbing them with the saw of the corrupt system in the backs.

Our family tried everything what is possible to contact and complain but when we more ask we is more discriminated as with people with disability included supreme court protective commission.

We discuss together and have a plan to approach the Australian queen head of state because everything is on her back yard which is not belong to her but my family don't recognise the queen we is from central Europe I would say democratic Europe and I would say extra like the British imperialist record from 500 years is absolutely fraud and she for me is only citizen of Europe and we don't approach her directly only through Human rights Commission Democratic Europe human rights lawyers with many human rights organizations which I have a contact I strongly believe in many meetings in Newcastle Immigrant Resource centre with immigration officials and previous immigration minister Philip Ruddock today federal attorney general which I have no choice and I was force by the system to contact the person what commit so much crime against refugee war victim in Iraqi and Afghanistan what was created by his own liberal party I tried to find the fraud and dirty liar about right to justice as I was refugee about my citizen ship here.

This arrogant not reply on my question since today but I believe that is all fraud and against my wish to be Australian citizen this important for me document is in regonisation the queen of England I think I and many others was abuse through this fraud because I never thinking taken citizenship in this country what I accept is supposed to be democratic country my citizen to be related to crime record of the British imperialist and international blood sucking.

that's no way to contact anything here we cannot Make a complain to the federal government general he is previous SAS Officer if I not wrong early as in korea Vietnam together with the defence chief they should be prosecuted buy international law for war crime were they ran away from the crime like rats after killing millions innocent citizens and they not pay one cents for compensation and the same crime is repeat in Afghanistan and Iraq but I strongly believe like myself previously officer polish army like the European law one day bring all of the before the international court .

They hiding behind the system with the hands full of human blood that is not related to any human civilisation but that is related to your system and your own history and plenty of them is work in the legal system that's why my family is discriminated and many other people after all what we discuss with you I think after many years suffering and abuse we have to have the right not only 30 minutes to explain I believe I work myself and many others what suffering from the brutal regime and pay enough tax and you high income and we have a right to ask that the job should be done properly and the mafia of criminals in the whole dirty politics should be bring before the clean law and pay the compensation what is belong to victim and respect justice what should be done long time ago.

On this meeting I bring with me my Australian citizen and I given to you back in protest it doesn't matter how long it will take to give and return all my family right and right to justice and punish the criminals of your politics what commit crime against us and sent to us public apology and guarantee which they never ever be abuse anybody else and clean their own hands from the crime they commit all the time before.

As we mention to your deputy Mr Paul There is nothing confidential in the painful Story and abuse everything have to be in access to the public specially for immigrants and everything be in the future in access to European public United nation and European media. That is our guarantee crime like thus will never be tolerated by international law and civilisation.

Printed by Dolores Marchlewski.

Ps: that is only 50% what we have to say.

Ps We have the letter to L. Marchlewski 3. Feb. 2004 we reply

In regards your email frieday 13th january 2004 from the Mr Delwyn Rance Admin Coordinator we preparing ver long list of the all arrogants what discriminating included the act of disability discrimination we past everything soon since the inquiry be finish we be suing anyone on behalf the inquiry and the commission for the whole abuse and discrimination people with disability we not let them go easily for the whole crime and rude arrogants behaviour of the government and the public servants.

PROPOSED ROYAL COMMISSION INTO NSW HEALTH SYSTEM

Assistance for NSW
 "Whistle-blower" Nurses,
 Health Professionals and Patients

ROMAN MARCHLEWSKI AND FAMILY

138 CROUDACE RD ELMORE VALE

me and my family, roman lamphud dolores maria and dominik we are suffering since 1992 very badly from the NSW governments arrogants of the most brutal anglo saxon settlers rogue british imperialist arrogants and i am refugee from poland and communist system i live in australia for 23 years and i never ever see so much corruption rude and arrogants politician corrupt legal professionals corrupt legal system and so many crime commit by health ministers by governments against citizens and victim of medial negligence.

we refer to the "whistle blowers" nurses with all possible assistance for the girls what should be recognised as a heroes against the corrupt criminals from the health departments and the ruse minister Mr Knowles and the all similar ignorance what in our record killing thousands people and innocent defendless sick and they what need help.

they kill our child and sister in 1992 in public hospital in the very brutal barbaric way. she died from hands of the crooks and intolerant government in NSW. my family is fighting for justice 12 years and the rotten system which can only be understand as a system of hitler Goebbels Goering o any other facist what kill millions in past.

the arrogants from the health departments at least when we suffering since 1992 should be not related only to royal commission they should be sent to jail for the crime and failer in duty when they coming to government and is the democratically elected and falsly swearing on the holy bible or any other docyuments to serving the duty and responsibility for citizens this country.

i reading to to you as a member polish solidarity and preson what only can looking today with our family for protection the democratic European Union human rights and the strongest constittion on earth what protecting citizens of Europe the protection never ever is given to austrlain citizens because they are is see by the rotten system and the corrupt rulers as a slaves what not deserve anything thats why they dieing in thousands each year and the system have no respect and human feeling for anybody.

reply quickly

copy of this document like many others be transferred to international law and European commission of human rights included united nation we is very happy to assist with our experience for any inquiry and for the nurses but we know how rude is the government for every citizen from our experience since 1992 when everything is fraud corrupt and still not finish. but is only one way to dealing with the criminals to bring them before international law not anywhere is any democracy was commit too much crime against innocent citizens like in 200 years history of this land what is still bleeding.

RE: Death of Maria Irena Marchlewski Coroner's File No: 329/92

And our family all contact before and letter 15th January 2004 and again my contact in last week and spoke with Mrs Rena we see that the court still play game with our family and that is very rude. She told me that the coroner don't have time to reply our family thinks that he has time 11 years to reply but he don't know what.

We not interesting what he is doing or the rotten system of government with Anglo-Saxons but they what abusing the law should keep away their dirty hands from immigrants central European and our family. In support we be using Disability Discrimination 1992 and federal court application 167 and support the commission, productivity commission, as abuse the legal system by the Newcastle court.

We wants mention to you that any further investigation on our request have to be done what we wants to be done not what anybody likes from the system or government and immediately we ask to call witnesses what we know can say the truth what exactly happen when the child body of Maria was kidnapped by the police and abuse with wrongful intervention in the body with not right.

RE: My Telephone contact with the coroner office and discuss with Mrs
Rina.

*In relation to big number of contact by telephone since 1992, 28th October
and letters which you don't reply and never confirm as we ask. I want remind
you that the coroner office never say any true in relation to documents and
death our child. As we mention before we wants viewing all the documents
plus transcript in relation to the coroner inquest and we never have chance
as we understand today, the rotten and deeply corrupt Australian legal
system hiding and abusing my family all the time.*

*In reason to that, we is very sure that the coroner related post mortem
examination was unlawfully and against the law done with not only any
consent and not information by the hospital police or coroners or any other
legal professionals inform that we have a right to going to court and stop the
post mortem to be done.*

*Which we understand today that absolutely not delivered any proper or true
result. The conclusion is that the coroner have no control on the unlawful
crime commit against our family. And that was all cover up and never tell
the true, today once again we ask for see and viewing everything what you
unlawfully discriminate our family in relation to act and form 167 and
instruction from the register.*

*Through the polish government and contact to the federal police and NSW
police for investigation in relation to fraud investigation by the police and
Newcastle Mr Stone there was not done anything what should be done and
investigation on the request in 1992 by NSW Police was untrue again and*

1-2

not done anything what we ask the support themselves with section 141 police act to the claim we have a meeting in my home with the police and they was present witness at the time , solicitor Martin rielly and seems to us there is a big problem , all the crime is practise all the time and is not related only to our family. We already ask now for any possible assist on the international law the European commission of human rights.

From my experience, the Australian legal system is not design to have have respect, for justice and for human rights. And after all we be ask experts recommended by European commission human rights for assist. We have evidence which still is strong to find out the truth in relation to her death.

Already from court hearing 1998, we understand there's lot of difference in the fax and still no body is charged for the crime as I mention, to the supreme court in letter 14th January, we wants second inquest in relation to the unlawful conspiracy by the coroners court in Newcastle and we wants from the court written document warranty protection, for my family from abuse by the Australian Anglo -Saxons rogue elements and corrupt politician like the government in time when our child died, all the brutal arrogant from the NSW police. We asking for quick reply and we wants attending to the court to continue searching for the truth in relation to crime hanibles and genocide by the NSW government.

Copy of this letter be sent to European Human rights commission, and Polish government included NSW and federal government.

You have to immediately and with no delay, confirm this document.

Newcastle Coroner Court,

We refer to the last letters and to any contact in past to the court. Since we was abuse and threatened by the Newcastle police we live in fear from very long time because in our view and view and interpretation, documents to supreme court Mr David Hirsh is explain the document is called submission or detailed Description Attendances Prepared by David Hirsh, dated 6th may 2003.

We believe that's the problem is not only related with the coroner but with the Newcastle court and with unlawful discrimination in relation to 167 form the federal court. We think that from the long time the coroner and the Newcastle court is against us. But we also think that the judge and the court have the responsibility to say to us the truth and don't have the right to using the law court house as a their private business or abuse citizens in that country.

We ask for full explanation written apology for the unlawful incident. That is the case why we have a problem and the system is abuse my family and why we have a problem with Mrs P.B because she say that she is very close friend to the coroner, we think that the problem start here that is the reason which we never have justice in the supreme court no body ever listen what we have to say because in that document explain that the coroner Mr Elliot doesn't want to have anything to doing with us.

We don't understand in the last 12 years what we done wrong , for the coroner for the police, for the john hunter hospital, for the rude and arrogant government at the time and for the legal system. The whole problem is that the system don't like to know the truth but today, again we ask where is the truth in relation to the crime commit against us by the what we mention before. We also see that is not only discrimination our family to

1-2-

write to compensation but is serious problem and unhuman discrimination our family rights to justice. We demand that the people what is involved in the crime to be sucked from position in relation to the abuse and they have to be bring before justice before the clean law what respecting human rights not before the law like in our case and many cases protecting the corrupt arrogant what abusing public interest.

As I mention to Mrs Rina I was abused in public place by the prosecutor and unlawfully he take my picture which I inform my polish government we don't understand for what reason the solicitor spend to much time before inquest on the police station and we don't understand why the police officer from the NSW complain unit all the time in the hearing instructing something to our solicitor or discussing many things with the lawyers what representing the hospital. After all his whole investigation against the hospital is absolutely fraud and he was very rude and arrogant when he came to see us and I throwing him outside .

When I was on few occasion watching other inquest in Newcastle this rude arrogant what represent the fascist NSW government of Anglo Saxons is doing exactly the same trick we wants written explanation to the discrimination to the coroner in other way is not any point to meet together and again we ask warranty of safety.

Because is many things coverup included past lost of false information by the media to the public and is again crime and abuse my family name and plenty untrue story we ask the coroner court Newcastle court to assist our family and correct the arrogant dirty information what is not related to any true evidence to the truth and is not related to this coroner funding his recommendation what he say to the media or the press.

Copy be sent to European government commission for human rights and Poland in Sydney.

Dear Mr Marchlewski

Re: Your Application for Legal Aid

We refer to the above and advise that your application was received at our office on 17 December 1997.

We note that we attended upon you at our office on 12 January 1998.

We also note that you provided to us copies of the judgement of Hodgson J of the Supreme Court dated 21 March 1997 together with letter from the Supreme Court of New South Wales dated 1 September 1997.

We have carefully considered your application and the material that you have provided with it. We advise that after carefully considering your application we have decided to refuse legal aid on the basis that we do not consider that you meet the Legal Aid Commission's merit test.

The Commission has adopted the merit test of whether it is reasonable in all the circumstances to grant legal aid. Circumstances to be taken into account include but are not limited to the nature and extent of any benefit that may accrue to the applicant by providing legal assistance or of any detriment that the applicant may suffer if legal assistance is refused and whether the applicant has reasonable prospects of success in the proceedings.

In all the circumstances we do not consider that you have reasonable prospects of success in seeking to overturn the decision of the Supreme Court in relation to their making of the Protected Estates Order.

Your attention is drawn to Section 56 of the Legal Aid Commission Act 1979 which enables you to appeal to the Legal Aid Review Committee if you are dissatisfied with this decision. Attached for your information are the relevant Appeal Forms. Please note that you have 28 days from the date of this letter to appeal this decision.

Yours sincerely

Dear Mr Marchlewski

I acknowledge receipt of your facsimile dated 12 March 2002 in which you claim that the Human Rights and Equal Opportunity Commission's decision to decline your complaint in 1997 as "out of time" was made unfairly. A review of that decision was carried out by the Commission's President in 1998 and that decision was subsequently upheld.

The Commission's sentencing procedures for closed files means that your file has been appropriately sentenced and is now destroyed. The Commission is, therefore, unable to assist you any further and I am returning your correspondence to you.

Re: Your complaint under the Racial Discrimination Act 1975 (Cth)

06 NOV 2004

I refer to the above complaint and to your request that the President review the decision of the Race Discrimination Commissioner ("the Commissioner") to decline to further inquire into your complaint against John Hunter Hospital and the NSW Police under the *Racial Discrimination Act 1975 (Cth)* ("the RDA"). A copy of my reasons for the decision is enclosed.

I want to assure you that I have given all your submissions very careful consideration, including your letter dated 13 January 1998. However, I am of the opinion that the Commissioner has properly exercised her discretion in declining to further inquire into the complaint on the basis that more than 12 months had elapsed since the act complained of and the lodgement of the complaint.

In coming to this decision, I note that the acts about which you complain occurred in September 1992 and the complaint was not lodged until November 1994, a delay of approximately two years. I also note that on a number of occasions since the lodgement of the complaint, you and your solicitor have requested suspensions of the Commission's investigation while you have pursued a common law claim against the Hospital. While I am aware of the traumatic nature of the events which caused you to bring your complaint, I am concerned that this substantial delay impacts on the ability of the Commission to fairly investigate this matter. A significant lapse of time between the acts complained of and the lodgement of the complaint will almost always adversely affect the availability of witnesses and the reliability and quality of evidence.

I also agree with the Commissioner's observation that on the information you have provided so far, it is unclear whether your complaint of race discrimination against John Hunter Hospital and the N.S.W. Police would be found to have substance. While I understand that the coronial inquest into your daughter Maria's death concluded that she would probably have survived if the delivery staff of John Hunter Hospital used a recommended obstetric procedure earlier in her birth, there is insufficient evidence on the file linking the unfortunate circumstances of your daughter's delivery with the race of either yourself or your wife.

You allege that the Hospital failed to provide your wife with an interpreter as she requested. In a telephone conversation on 3 December 1996 with the conciliation officer handling this matter, your wife described how she had usually been provided with an interpreter by the Hospital on her pre-natal visits but how on the night she went into labour an interpreter was not provided. She stated that an interpreter was provided the next morning. In view of these circumstances, there appears to be insufficient evidence that on the evening that she went into delivery, your

*Kasidy emigrant ma komparat
e bozut nois*

wife was not provided with an interpreter *because* of her race. Similarly, while you are dissatisfied with the police investigation of your allegations concerning the death of your child, there is insufficient evidence to link the alleged conduct of the NSW Police with your race.

In your letter dated 13 January 1998, you stated:

"My family is not happy with decision of the Human Rights and Equal Opportunity Commission at all. Our complaints is not only on race and discrimination but all the International Covenant on Civil and Human Rights violations and abuses (on) my family in Australia."

→ In this regard, I draw your attention to the letter from the Human Rights Commissioner to you dated 14 June 1996. Commissioner Sidoti advised you that he was unable to inquire into your allegations of breaches of human rights by the John Hunter Hospital and several other agencies or departments because he is not empowered to do so under the *Human Rights and Equal Opportunity Commission Act 1986 (Cth)* ("the HREOCA"). Under the HREOCA, the Human Rights Commissioner is only authorised to inquire into complaints of alleged breaches of human rights where the breach involves an act or practice of the Commonwealth, and not complaints about the actions of a State government agency or employee. ↓

I realise that this matter has caused you and your family a great deal of distress and that you will be disappointed with my decision. However, in all the circumstances I have decided that your complaint was correctly declined by the Commissioner.

With all good wishes for the future.

Yours sincerely,

Ron Wilson

Re: Reason for Patrol Service

Received phone call 14 June from Roman Marchlewski, he asked for someone to see him at his house immediately. I arrived some 30 minutes later to find a very distressed Mr Marchlewski waiting on his front porch. He advised me that he had concerns for his safety and that of his wife. These concerns stemmed from a dispute he was having with the John Hunter Hospital, Wallsend Police and three (3) GIO Solicitors - Julia Lonergoin, Helen Turnbull & Audrey Lee.

I spoke to Philomena Bowan who is appointed by Supreme Court, Sydney as Mr Marchlewski tutor for the purposes of court action. Ms Bowan verified to me that there was a case and that it would be settled in court in the coming months.

Mr Marchlewski has requested on 16 October 1996 that Chubb Security continue his patrol services to his premises at 138 Croudace Road Elmore Vale.

I hope the above report assists you in this matter.

Re Your Centrelink Matter

Dear Mr Marchlewski,

I am writing in response to your fax of 26 June 2003. I apologise for the delay in responding as I have been on leave.

I understand from your fax that you wish to pursue a claim of compensation for detriment due to defective administration (CDDA) from Centrelink. As we have discussed previously in order to do this you will need to set out exactly what you are seeking from Centrelink. This means what economic loss did you suffer as a direct result of their defective administration or negligence. This is different than pursuing action on the grounds of pain and suffering. To do this you would need to obtain advice from a solicitor as the Welfare Right Centre is unable to assist with such matters.

If you would like some further advice in relation to pursuing a CDDA claim please feel free to contact me.

Yours sincerely,
Welfare Rights Centre
