The Presiding Commissioner  
Regulatory Burdens: Social & Economic Infrastructure Services  
Productivity Commission  
GPO Box 1428  
Canberra City ACT 2601

Dear Madam

**Re: Draft Productivity Commission Research Report: Annual Review of Regulatory Burdens on Business: Social and Economic Infrastructure Services**

Thank you for the opportunity to review and comment on the Commission's draft research report. There is one paragraph in the report where an amendment is required to improve its accuracy. Specifically the last sentence of paragraph 4, page 236 currently reads:

*However, to date, three jurisdictions have not delegated responsibility to NARA (TVET Australia, sub. 39, p.6), so the need for multiple audits across jurisdictions remains.*

It would be more correct if that sentence read:

*However, to date, three jurisdictions have not delegated responsibility to NARA (TVET Australia, sub. 39, p.6), so the potential for multiple audits across jurisdictions remains.*
