

## **Submission to the Textile Clothing and Footwear Inquiry**

Subject: submission

I have previously registered our interest in making a submission.

I feel there are 2 major issues that need addressing:

- 1 if a company goes into administration no funding can continue -- it is ridiculous that the govt. can continue making payments after a co. has found that it is insolvent.
- 2 restructuring/rationalisation costs of metropolitan mills should be allowed--not just those in regional/TCF dependent areas.
