Productivity Commission - Worker's Compensation

Dear Jill,

Kerry Splatt would like to note in addendum to his submission numbered IR 197, that in the 2003 financial year the average Common Law claims under the Queensland system actually decreased by \$12,537. He believes this is further evidence of the economic viability of the Queensland system and yet another reason for the Commission to examine the Queensland scheme in closer detail.

Yours Faithfully,

Greg Smart

Law Clerk
