Foreword	xiii
Report at a glance	xiv
Overview	xvii
1 Introduction	1
1.1 Background	1
1.2 The policy setting	2
1.3 Key objectives of the study	2
1.4 Methodology	3
1.5 Outline of report	4
PART A Nature and extent of cooperation	7
2 Setting the scene	9
2.1 Defining business cooperation	9
2.1.1 The cooperation continuum	9
2.1.2 The boundaries of cooperative behaviour	11
2.2 How much cooperation is occurring and in what forms?	12
2.2.1 How extensive is business cooperation?	12
2.2.2 How many arrangements do firms have?	13
2.2.3 Which cooperative arrangements are most prevalent?	14
2.3 The changing role of business cooperation	15
2.3.1 Changing frequency of cooperation	15
2.3.2 Cooperation as a business strategy	16
2.4 Summary	17
3 Why do firms cooperate?	19
3.1 Reasons for business cooperation	19
3.1.1 The function of cooperation	19
3.1.2 What determines a firm's boundaries?	22
3.1.3 A world without business cooperation	23
3.1.4 What sorts of firms will cooperate and when will they do it?	24
3.2 Modes of cooperation	33
3.2.1 Formal versus informal	33
3.2.2 Domestic versus overseas	34
3.2.3 Linking with whom?	36
3.3 Summary	37
4 Which firms cooperate?	39
4.1 Overview	39
4.1.1 Industries	41

4.1.2 States	42
4.1.3 Metropolitan and regional firms	42
4.2 Characteristics of cooperating and non-cooperating firms	43
4.2.1 Firm size	43
4.2.2 Age of firm	44
4.2.3 High and low performance firms	45
4.2.4 Exporters and non-exporters	46
4.2.5 Product type	46
4.2.6 Technology content	47
4.2.7 Ownership	48
4.2.8 Competition	49
4.2.9 Competitive advantages	49
4.2.10 Constraints	51
4.3 Modelling analysis	52
4.4 Summary	52
5 How do firms cooperate?	55
5.1 Intensity of arrangements	56
5.1.1 Number of arrangements	56
5.1.2 Number of partners within arrangements	60
5.1.3 Formal and informal arrangements	62
5.2 Nature of the arrangement partners	66
5.2.1 Arrangements with customers, suppliers and 'other' firms	66
5.2.2 Overseas and domestic arrangements	70
5.3 Modelling analysis	72
5.3.1 Number of partners	74
5.3.2 Formal/informal	74
5.3.3 Customers/suppliers/other	74
5.3.4 Overseas firms	75
5.4 Summary	75
PART B Benefits and performance	77
6 Overview of business cooperation benefits	79
6.1 All industries	79
6.1.1 Degree of benefits	79
6.1.2 Major benefits of cooperation	82
6.1.3 The Benefit Index	84
6.2 Benefits by state	85
6.3 Benefits by metropolitan/regional location	87
6.4 Summary	88

7 How do different firms benefit?	91
7.1 Benefits and firm characteristics	91
7.1.1 Industries	91
7.1.2 Size of firm	95
7.1.3 Technology content	98
7.1.4 Exporters and non-exporters	100
7.1.5 High and low performing firms	103
7.1.6 Product type	104
7.1.7 Age of firm	106
7.1.8 Other firm characteristics	108
7.2 Competitive advantages	108
7.2.1 Leading competitive advantages	109
7.2.2 Tendency to cooperate and competitive advantages	111
7.3 Performance constraints	113
7.3.1 The key performance constraints	113
7.4 Summary	116
8 Benefits and different forms of cooperation	119
8.1 Benefits and the intensity of the arrangements	120
8.1.1 Number of arrangements	120
8.1.2 Number of partners in the arrangement	122
8.1.3 Formality of the arrangements	124
8.2 Benefits and the nature of the arrangement partners	127
8.2.1 Customers, suppliers and other firms	127
8.2.2 Overseas and domestic partners	132
8.3 The key arrangement and partner firm characteristics	135
8.3.1 Key arrangement - overall benefits	135
8.3.2 Age of the key arrangement	136
8.3.3 Key arrangement and partner firm characteristics	137
8.4 Modelling analysis	141
8.5 Summary	142
9 The key arrangement, competitiveness and firm performance	145
9.1 A snap shot of the impacts of cooperation	147
9.1.1 Overview	147
9.1.2 Impacts by Industry	150
9.1.3 Impacts by state	152
9.2 Impacts and the characteristics of the firm	153
9.2.1 Impacts and the size of firms	154
9.2.2 Age of firms	155
9.2.3 Exporters and non-exporters	157
9.2.4 Impacts and firm performance	158
9.2.5 Product types	159
9.2.6 Low, medium and high-tech firms	161
9.2.7 Other firm characteristics	162
9.3 Impacts and the characteristics of arrangements	163
9.3.1 Formal and informal arrangements	163
9.3.2 Customers, suppliers and other firms	165
9.3.3 Impacts and the age of key arrangements	166
9.3.4 Impacts and the characteristics of partner firms	168
9.4 Modelling analysis	171
9.5 Summary	172

PART C Problems, failures and impediments	175
10 Problems encountered in cooperative arrangements	177
10.1 Overview	177
10.1.1 All industries	178
10.1.2 States	180
10.1.3 Metropolitan/regional location	182
10.2 Problems and firm characteristics	183
10.2.1 Industry	183
10.2.2 Size of firm	184
10.2.3 Technology content of product	186
10.2.4 Exporters and non-exporters	187
10.2.5 High and low performing firms	188
10.2.6 Age of firm	190
10.2.7 Other characteristics	191
10.3 Problems and different forms of cooperation	191
10.3.1 Problems and the intensity of the arrangements	191
10.3.2 Problems encountered with different arrangement partners	195
10.4 Summary	198
11 Why do cooperative arrangements fail?	201
11.1 Overview of cooperation failure	201
11.1.1 All industries	201
11.2 Cooperation failure and firm characteristics	204
11.2.1 Industries	204
11.2.2 Size of firm	205
11.2.3 Exporters and non-exporters	207
11.2.4 High and low performance firms	207
11.2.5 Age of firm	208
11.2.6 Other firm characteristics	209
11.3 Summary	210
12 Impediments to business cooperation	211
12.1 Why firms do not cooperate	211
12.1.1 All industries	211
12.1.2 Impediments by state	214
12.2 Impediments and firm characteristics	216
12.2.1 Impediments by industry	216
12.2.2 Size of firm	218
12.2.3 Age of firm	219
12.2.4 Exporters and non-exporters	220
12.2.5 High and low performing firms	221
12.2.6 Technology content	222
12.2.7 Other firm characteristics	223
12.3 Summary	224
PART D Assistance for business cooperation	225
13 Role and significance of external assistance	227
13.1 What ways are there of assisting firms to cooperate?	227

13.2 What assistance do governments and industry associations provide?	228
13.2.1 Government programs	228
13.2.2 Industry association assistance	231
13.3 Effectiveness of external assistance	233
13.3.1 Effectiveness of government assistance	233
13.3.2 Effectiveness of industry association assistance	235
13.4 Outcomes of external assistance	237
13.4.1 Outcomes of government assistance	237
13.4.2 Outcomes of industry association assistance	239
13.5 The forms of assistance preferred by firms	241
13.5.1 Do firms want any assistance?	241
13.5.2 Favoured forms of government assistance	242
13.5.3 Preferred assistance varies with type of firm and arrangement	244
13.6 Summary	249
14 Policy implications and recommendations	251
14.1 Linkages as a tool	251
14.2 What should industry policy be applied to? A new role for linked firms	253
14.3 Government assistance for business cooperation	253
14.3.1 Promoting network arrangements	257
14.3.2 A new program for one-to-one cooperative arrangements	259
14.3.3 Identifying partners, business opportunities and markets	265
14.3.4 More effective use of information technology	266
Appendices	
A Survey and modelling methodology	269
B Background information on industries	291
C Summary of types of cooperative arrangements	297
D Government involvement in inter-firm cooperation	301
E The Business Networks Program	313
F Taxonomy of government-assisted networks	321
G A new way of delivering financial assistance	331

Glossary of terms	335
Acronyms	338
Bibliography	339

List of Figures

2.1 Cooperation continuum	10
2.2 Extent of business cooperation in Australia	12
2.3 Number of cooperative arrangements(a)	14
2.4 The changing frequency of cooperation	16
2.5 The changing strategic importance of cooperation	17
3.1 How we do things better	20
3.2 The role of cooperation in firm learning	21
3.3 When will firms cooperate?	26
3.4 To cooperate or not? A revealing game	29
3.5 Rules versus trust-based relationships, by country	31
3.6 Short term job turnover and long term job stability	32
3.7 Modes of cooperation	33
3.8 Formal versus informal relationships	34
3.9 Technological infrastructure for knowledge diffusion	36
4.1 Turnover size of cooperating and non-cooperating firms, by industry	44
4.2 Technology content of product by industry and cooperation status	48
4.3 Firms' competitive advantages, ranked as top three	50
4.4 Constraints on firm performance, ranked top three	51
5.1 Number of arrangements, by industry	57
5.2 Number of arrangements by firm size (employees)	59
5.3 Number of arrangements, by technology content	59
5.4 Extent of single and multi-partner arrangements	60
5.5 Extent of cooperation with customers, suppliers and 'other' firms	67
5.6 Extent of cooperation involving overseas partners	70
5.7 Links with overseas firms, by industry	70
5.8 Links with overseas firms, by age	71
6.1 Firms obtaining some benefits from cooperation, all industries	80
6.2 Major benefits of cooperation, all industries	82
6.3 Major benefits of cooperation, by state	86
6.4 Major benefits of cooperation for metropolitan and regional firms	88
7.1 Major benefits of cooperation, by industry	92
7.2 Major cooperation benefits - new overseas customers/suppliers and product development	93
7.3 Major benefits of cooperation, by firm size	95
7.4 New overseas customers/suppliers benefits, by firm size	96
7.5 Product development benefits, by firm size	97
7.6 Major benefits of cooperation, by technology content of firm's product	99
7.7 Major benefits of cooperation for exporters and non-exporters	101
7.8 Major benefits of cooperation for high and low performing firms	103
7.9 Major benefits of cooperation, by firm's product type	105

7.10 Major benefits of cooperation, by age of firm	107
7.11 Major benefits of cooperation for firms with the leading four competitive advantages	110
7.12 Major benefits of cooperation associated with the competitive advantages of firms with the greatest tendency to cooperate	112
7.13 Major benefits of cooperation for firms with the four most important performance constraints	115
8.1 Major benefits of cooperation, by number of arrangements	121
8.2 Major benefits of cooperation, by number of partners in arrangement	123
8.3 Major benefits of cooperation, by formality of arrangements	124
8.4 Major benefits of arrangements with customers, suppliers and other firms	128
8.5 Quality enhancement in arrangements with customers, suppliers and other firms	129
8.6 Product development benefits in arrangements with customers, suppliers and other firms	131
8.7 Major benefits of arrangements with overseas and domestic firms	133
8.8 Benefits of the key arrangement	135
8.9 Benefits of the key arrangement, by arrangement age	136
8.10 Benefits of key arrangements, by partner's size	138
8.11 Benefits of key arrangements, by location of partner firms	139
9.1 Impacts of key arrangements	148
9.2 Performance improvements, by size of increase	149
9.3 Positive impacts on technology, by industry	151
9.4 Positive impacts on exporters, by State	153
9.5 Positive impacts of key arrangements, by firm size	154
9.6 Average size(a) of impacts on firm performance by firm size	155
9.7 Positive impacts of key arrangements, by age of firm	156
9.8 Turnover increases, by age of firm	157
9.9 Positive impacts of key arrangements, exporters and non-exporters	158
9.10 Positive impacts of key arrangement, by turnover performance	159
9.11 Positive impacts of key arrangements, by product type	160
9.12 Positive impacts of key arrangements, by technology level	161
9.13 Positive impacts of key arrangements, by formality of arrangement	164
9.14 Positive impacts of key arrangements, by type of arrangement	165
9.15 Positive impacts of key arrangements, by age of arrangement	167
9.16 Average size(a) of impacts on firm performance by age of arrangement	168
9.17 Positive impacts of key arrangements, by partner location	169
F.18 Positive impacts of key arrangements, by relative size of partner firms	170
10.1 Problems encountered in arrangements, all industries	179
10.2 Problems encountered in arrangements, by state	181
10.3 Problems encountered in arrangements by metropolitan and regional firms	182
10.4 Problems encountered in arrangements, by industry	183
10.5 Problems encountered in arrangements, by firm size	185
10.6 Problems encountered in arrangements, by technology content of firm's product	187
10.7 Problems encountered in arrangements by exporters and non-exporters	188
10.8 Problems encountered in arrangements by high and low performers	189
10.9 Problems encountered in arrangements, by age of firm	190
10.10 Problems encountered in arrangements, by number of arrangements	192
10.11 Problems encountered in single partner and multi-partner arrangements	193
10.12 Problems encountered in formal and informal arrangements	194
10.13 Problems encountered in arrangements with customers, suppliers and other firms	196
10.14 Problems encountered in arrangements with overseas and domestic firms	197
11.1 Reasons for cooperation failure, all industries	202
11.2 Reasons for cooperation failure, by industry	204
11.3 Reasons for cooperation failure, by firm size	206
11.4 Reasons for cooperation failure by exporters and non-exporters	207
11.5 Reasons for cooperation failure by high and low performers	208
11.6 Reasons for cooperation failure, by age of firm	209

12.1 Impediments to cooperation, all industries	212
12.2 Factors inhibiting networking	213
12.3 'Other' impediments to cooperation, all industries	213
12.4 Impediments to cooperation, by state	215
12.5 Impediments to cooperation, by industry	216
12.6 Impediments to cooperation, by firm size(a)	218
12.7 Impediments to cooperation, by age of firm	219
12.8 Impediments to cooperation, exporters and non-exporters	221
12.9 Impediments to cooperation, high and low performers	222
12.10 Impediments to cooperation, by technology content of firm's product	223
13.1 Rating government performance	234
13.2 Problems faced in gaining government assistance	235
13.3 Rating industry association performance	236
13.4 Business cooperation benefits and government assistance(a)	238
13.5 Business cooperation benefits and industry association assistance(a)	240
13.6 Firms agreeing with government assistance, cooperating and non-cooperating firms	243
13.7 How can the government promote the use of formal networks?	244
13.8 Preferred forms of government assistance, government-assisted and non-assisted firms	245
13.9 Preferred forms of government assistance, large and micro firms	246
13.10 Preferred forms of government assistance, firms with formal and informal arrangements	247
13.11 Preferred forms of government assistance, number of firms in arrangements	247
13.12 Preferred forms of government assistance, firms with one or multiple cooperative arrangements	248
F.1 Networks by sector	322
F.2 Networks by state	323
F.3 Number of networks by state and sector	324
F.4 Percentage of networks at each stage of development	325
F.5 Number of networks at each stage of development	325
F.6 Networks by age	326
F.7 Networks by age and state	327
F.8 Networks by number of membersa	327
F.9 Networks by sector and number of members	328
F.10 Networks in the manufacturing sector, by product	329

List of tables

2.1 Summary of arrangement types	15
4.1 Which firms cooperate, by various characteristics	40
4.2 Survey responses by industry	41
5.1 Firm characteristics and type of arrangements - summary	56
5.2 Single-partner and multi-partner arrangements, per cent of cooperating firms	61
5.3 Formal and informal arrangements, per cent of cooperating firms	64
5.4 Supplier, customer and other links, per cent of cooperating firms	69
5.5 Overseas linkages, per cent of cooperating firms	72
6.1 Comparative rankings of some and major benefits of cooperation	81
9.1 Positive impacts of key arrangements, by industry (per cent)	150
9.2 Positive impacts of key arrangements, by state (per cent)	153

A.1 Sample structure and response rate	270
C.1 Types of cooperative arrangements by industry	297
C.2 Formal and informal arrangements	298
C.3 Arrangements with customers, suppliers, and other firms	299
C.4 Single and multiple firm arrangements	300
C.5 Arrangements with overseas firms	300
F.1 Number of firms per network	323

List of Boxes

2.1 Defining business cooperation	12
2.2 Pan Bio - Know your limits	14
2.3 The need to work with other firms	16
2.4 How cooperative arrangements begin	17
3.1 Southern Gold: Spreading global marketing costs over many firms	28
4.1 Cooperation – providing a foundation for growth	47
4.2 High technology – high cooperation	48
5.1 Achieving big things through cooperation	57
5.2 Multiple firm network - PTE Hydraulics	60
5.3 To formalise or not to formalise	63
5.4 Formalisation of arrangements	65
5.5 Customer and supplier arrangements	67
5.6 Arrangements with overseas companies - Agen Biomedical	73
7.1 Dealing with distributors	94
7.2 Smoother production through cooperation	94
7.3 Designing the product for the customer	100
7.4 Cooperating for an export drive	102
7.5 Good reputation attracts cooperation	111
8.1 More arrangements, more benefits	122
8.2 Firms are more likely to benefit through formal arrangements	125
8.3 Informal benchmarking and improved production processes	126
8.4 Working with a key customer	129
8.5 Working closely with suppliers	130
8.6 Controlling the value chain	131
8.7 Accessing technology through overseas partners	133
8.8 The importance of overseas partners	134
9.1 Impacts of the PfD and FTA programs	152
10.1 Cooperation and time commitments	180
10.2 The importance of size	186
10.3 Competition and cooperation - Robins Bush Food	193
11.1 Surviving the test of time	203
13.1 An overview of government-assisted networks	229
13.2 Australia's Best Foods - a FINA network	230
13.3 MTIA working with government	232
13.4 Medical Industry Association of Australia (MIAA)	236
13.5 Southern Gold - a government-sponsored network	239
14.1 Hypotheticals: finding out about best practice	262
D1 Examples of State government programs relating to inter-firm linkages	311
